

OPTIX G SERIES CELL CAST SHEET... THE ADVANTAGES ARE CLEAR TO SEE

Fabrication-friendly, OPTIX[®] G Series Cell Cast sheet is optically clear and polishes to a crystal clear clarity. For many notable applications such as aquariums, furniture, store fixtures and more, the advantages of choosing OPTIX G Series Cell Cast are clearly obvious.

- » Superior molecular weight
- » Low residual monomer
- » Low thickness tolerance
- » Extreme clarity with high light transmission
- » Excellent thermoforming performance due to good stretching properties
- » Exceptional edge polishing reaction to laser cutting
